

## Prompting do's and don'ts

Get the most out of Copilot and avoid common pitfalls by learning **what to do** and what **not to do when** writing prompts.

As a certified **Microsoft partner**, we can help you get ready for everyday AI-powered companion that will **transform your productivity and communication**. We'll work with you to develop your adoption strategy and prepare your environment for maximum impact.

### Copilot for Microsoft 365

#### Do's

##### ✓ Be clear and specific.

Provide specific instructions to Copilot, such as topic, purpose, tone, and required length.

##### ✓ Keep it conversational.

Give feedback to Copilot based on the quality of its responses to help the AI learn and match your preferences.

##### ✓ Give examples.

Use clear and specific keywords or phrases when asking Copilot to write a piece of text for you. This helps it generate more relevant and creative copy.

##### ✓ Ask for feedback.

Requesting feedback from Copilot helps it to understand your needs and preferences, and to provide you with more relevant, helpful responses.

##### ✓ Check for accuracy.

Occasionally, Copilot may make mistakes. Always check Copilot's responses for accuracy, grammar, and style, and watch out for irrelevant or inappropriate content.

##### ✓ Provide details.

Provide Copilot with contextual details to help it generate more accurate, consistent responses. For example, the genre, characters, and plot to a story.

##### ✓ Be polite.

Using kind and respectful language when chatting with Copilot helps foster collaboration and improves the AI's responsiveness and performance.

#### Dont's

##### ✗ Be vague.

When prompting Copilot, avoid using vague language, and be as clear as possible to receive better-quality responses.

##### ✗ Request inappropriate or unethical content.

Copilot is not responsible for the content or the consequences of your writing. You should respect local laws, rules, and the rights of others.

##### ✗ Use slang, jargon, or informal language.

This may cause Copilot to give low-quality, inappropriate or unprofessional responses.

##### ✗ Give conflicting instructions.

Prompting Copilot to perform a task that includes multiple or conflicting pieces of information in the same request can confuse the AI and result in lower quality responses.

##### ✗ Interrupt or change topics abruptly.

This could disrupt Copilot's writing process. Always close or finish a task before starting a new one. When starting a new task, write "New task."
